ONE ACCOUNT · MANY BUSINESS CONTEXTS

One Prabhas Account. Many Businesses.

One clear operating context.

The login identifies the person. The active workspace identifies which business, legal entity or branch they are operating.

Owner

Business workspace

Branch / unit

Apps

HOTEL

Aurora Hospitality Pvt Ltd

Guest billing · books · messaging · documents

RETAIL

CityMart LLP

POS · inventory · GST billing · accounting

DESIGN

Studio North

Drafting · invoices · accounts · documents

THE GOLDEN RULE

Never make a human create a new login just because they run another business.

Keep identity shared. Keep business data scoped to the active workspace.

1 Prabhas Identity

One human login across the ecosystem.

2 Business Workspace

Primary security and data boundary.

3 Legal Entity

PAN / GST-bearing entity and statutory identity.

4 Business Unit

Hotel property, outlet, branch, warehouse or clinic.

5 App Entitlements

Which Prabhas apps this business can use.

6 Connections

Explicit, business-scoped app-to-app flows.

SHARE

Login · profile · app launcher · owner dashboard · consolidated purchase history.

ISOLATE BY DEFAULT

Books · stock · GST registrations · customers · messages · staff permissions · business billing data.

SAME OWNER · DIFFERENT UTILITIES

Hotel + retail store under one Prabhas identity

HOTEL WORKSPACE

Aurora Hotel

GSTIN A

Seedha Bill
Guest / company GST invoices

Lekhya AI
Books, bank, GST and reconciliation

Samvaad
Guest reminders and service messages

Dastavej
Guest forms, contracts and PDFs

RETAIL WORKSPACE

CityMart

GSTIN B

Sanchay
Counter sales, inventory and stock

Seedha Bill
GST / B2B invoicing

Lekhya AI
Accounting and reconciliation

Samvaad
Receipts and order/status messages

One login. Two completely separate operating contexts. Switch workspace; do not merge books, stock or customers.

ONE PERSON · MULTIPLE LEGAL BUSINESSES

A consolidated owner view without consolidated operational data

GSTIN A

Aurora Hospitality Pvt Ltd

Hotel operations

- Own books, guests, GST registration and staff.
- Apps: Seedha Bill · Lekhya · Samvaad · Dastavej.

GSTIN B

CityMart LLP

Retail + inventory

- Own stock, tills, suppliers, GST registration and staff.
- Apps: Sanchay · Seedha Bill · Lekhya · Samvaad.

GSTIN C / NON-GST

Studio North

Design services

- Own invoices, files, clients and project records.
- Apps: Shilp3D · Seedha Bill · Lekhya · Dastavej.

OWNER CAN SEE

All subscriptions · all purchase history · every workspace they own · one launcher.

OWNER MUST STILL CHOOSE

Active business before entering invoices, stock, messages, books or GST workflows.

ONE COMPANY · MANY BRANCHES

Shared legal identity, branch-aware operations

LEGAL ENTITY

CityMart Pvt Ltd — Same PAN/GST entity. Multiple operating units.

MUMBAI

Outlet 01

Local stock · cash drawer · staff

PUNE

Outlet 02

Local stock · cash drawer · staff

SURAT

Outlet 03

Local stock · cash drawer · staff

SHARED

Legal identity · owner/admin roles · chart of accounts · consolidated reporting.

BRANCH-SCOPED

Stock · devices · employees · tills · local managers · optional invoice series.

Use a branch switcher inside the same business. Do not create three unrelated companies if they are operational units of one legal entity.

CA / ACCOUNTANT PRACTICE

Delegated access - never client ownership

PRACTICE VIEW

One accountant identity

Switch between client workspaces with explicit engagement permissions.

- Prepare
- Client approves
- Platform posts & reconciles

CLIENT A — ENGAGED

Aurora Hospitality

Client remains the owner and source of truth.

CLIENT B — ENGAGED

CityMart LLP

Access can be scoped, reviewed and revoked.

CLIENT C — READ / REVIEW

Studio North

Practice dashboard can span clients without merging tenant data.

Ending the engagement revokes access; it does not move or delete the client's data.

× Do not place every client inside the accountant's own tenant/workspace.

THE RIGHT APP FOR EACH JOB

One ecosystem, explicit business context

Seedha Bill
GST invoicing

Retail · services · hotels · B2B.

Lekhya AI
Accounting ERP

Books · bank · GST · reconciliation.

Sanchay
POS & inventory

Counter · stock · warehouse.

Samvaad
Business messaging

Receipts · reminders · approvals.

Dastavej
PDF & forms

Contracts · registrations · documents.

Shilp3D
Blueprint drafting

Architects · engineers · property planning.

Desk
AI office suite

Planned product.

EXAMPLE FLOW

Sanchay sale Seedha Bill Lekhya Samvaad

Every hop carries the same business context and correlation ID.

HOW THE USER SHOULD EXPERIENCE THIS

Business context must always be visible before action

Prabhas Account

Operating as: CityMart LLP - Mumbai Outlet

GSTIN 27ABCDE1234F1Z5

Switch business

Apps & Access

Sanchay · Seedha Bill · Lekhya · Samvaad

Connections

Only this business's active integrations

Purchase History

Current business / All businesses

Members & roles

Owner · branch manager · cashier · accountant

High-risk confirmation

Repeat business + GSTIN before posting / messaging / payment

Context switch protection After switching businesses, the next high-impact action explicitly confirms the new context.

DO

- Use one Prabhas identity across businesses.
- Show active business, GSTIN and branch persistently.
- Keep entitlements and purchase history business-aware.

DON'T

- × Tie a login permanently to one GSTIN.
- × Merge stock or books across unrelated businesses.
- × Auto-connect an app to every workspace.
